

KIWANIS NEWSLETTER

October 27, 2016

Doc Steele ran the meeting again in the absence of Prez Hilding. Shane Kramer returned from the ideal climate spot of Nebraska for his first meeting here since last Spring.

CalNevHa Region 10 Training Conference- This will be held in Santa Maria on 11/12 from 8:30am to 2:30pm. It will discuss topics such as club leadership succession, using social media, club retreats, and strategic planning. Lunch is provided and the \$25 registration fee will be covered by our club. Notify Hilding Larson if you are interested in attending.

Curb Painting- Bob Kitamura, Hilding Larson, Doc Steele, and Bob Alderman attended an SLO City Public Works Dept. BBQ and were recognized for our red curb painting on Pacific and Palm streets over the last 5 months. They were also given SLOPW tee-shirts to wear at our next formal affair.

Youth Activities- Diana Meyer reported that the SLOHS Key Club is getting more active in projects and the Laguna Middle School Builder's Club is interested in working in the community garden at the school.

Satellite Club- 6 members met at the Country Club on Tuesday night and another meeting is scheduled for next Tuesday, Nov. 1. Contact Ken Rodman if you can make it.

Joke- Lynn Cooper scored with an election joke.

Soap Box- Dick Riggins explained death penalty propositions #62 and #66 on the California ballot.

Fines & Happy Bucks- Gary Simas opened the festivities by fining all the Chicago Cub fans because the Cubs had beaten the Dodgers. Doc Steele and Jim Nielsen were hit for poor intros. Shane Kramer was happy to be back. Rich Carsel received a compliment for his yoga. Gary Simas was glad Cal Poly beat UC Davis in football. Diana Meyer said a future Kiwanis speaker will help start a community garden at the Juvenile Hall.

Program- Our speaker was John Erik Storm, a labor attorney and vice-president of the Los Osos Community Service District. He discussed the water situation in the current climate. He feels the California population will continue to grow and we must have water supplies in the right place to meet its needs. Other than rain totals, it is also important where it rains. Snow runoff and energy supply to transport the water are other factors. His answers to solving the problem are (1) Conservation; (2) Storage (more reservoirs); (3) Recycled water; (4) Desalination.

Drawings- \$10- Doc Steele

\$25- Diana Meyer

Flag- David Volk

Soap Box- David Volk

Song- Roger Jump

Fine Free- Diana Meyer

Inspiration- Stew Jenkins

Joke- Jerry Lenthall

Membership (\$52.50)- Bob Alderman defied the 50-1 odds by picking the Ace of Spades and winning the jackpot.

Next Program- John Shoals on the Closure of Diablo Canyon.

Upcoming Dates-

11/1- Board Meeting at 12:15pm at the main clubhouse of the Laguna Mobile Home Park.

11/6- Feed The Homeless.
