James Shammass was happy about the start of football season. Hilding Larson lost his club challenge about the cover of the KI magazine.

Program- Our speaker was Linda Thompson of the SLO Friends of the Library. Along with the AAUW, they sponsor an in-school reading program for students at Hawthorne and C.L. Smith elementary schools. Last year, 314 students were helped by about 35 volunteers including our own George Petty, Ben McAdams, and Dick Riggins. They do one-on-one reading with students judged by their teachers to need extra help. The program has been in existence for 9 years, and has been shown to increase reading scores on standardized testing. Students are also given books and book bags at the end of the year to encourage reading over the summer.
